

MAGNIMAIL

Automatic Email Archive For Laserfiche®

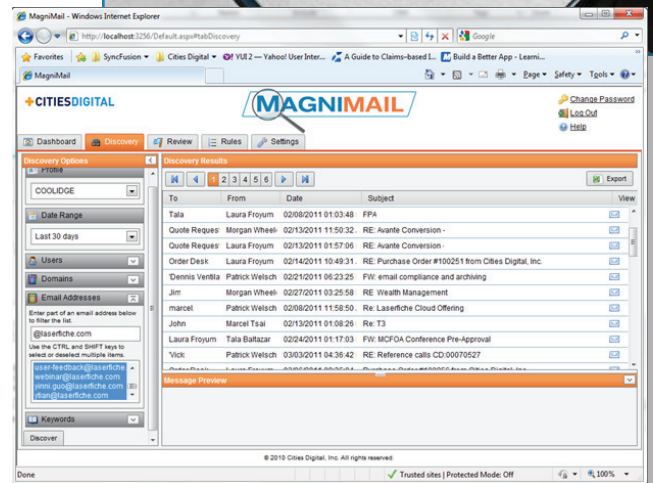

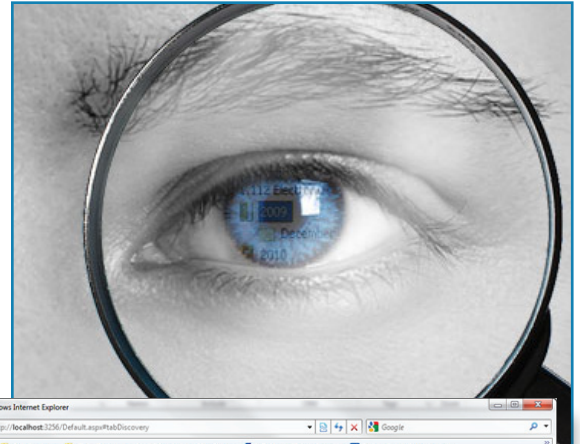

MAGNIMAIL is an email archive system designed to provide automatic archiving of emails directly from your Microsoft Exchange 2007 or 2010 server. MAGNIMAIL can be a replacement or complement to many email compliance services you are now using.

MAGNIMAIL automates the work that would be required to monitor, move, categorize, and store email records. MAGNIMAIL does not use Microsoft Outlook and users have no control in the archiving process.

MAGNIMAIL boasts the power of the DISCOVERY DASHBOARD, which makes managing and tracking thousands of messages easy and efficient, and reduces compliance headaches.

MAGNIMAIL FEATURES:

- Automatic archiving of all inbound and outbound emails from Exchange
- Supports Exchange 2007 and 2010 with multiple domains and clustered environments
- Emails archived in non-proprietary format
- Includes rules-based filtering of domains, addresses and auto filing of emails
- Auto file emails by client/vendor/employee
- System vitals dashboard for monitoring emails processed from each server
- E-discovery screen for manager's or compliance officer's view of email
- Query email by date, domain, user or full text search
- Keyword quarantine for review
- Attachment separation for alternate processing

MAGNIMAIL

Automatic Email Archive
For Laserfiche®

MAGNIMAIL DISCOVERY DASHBOARD

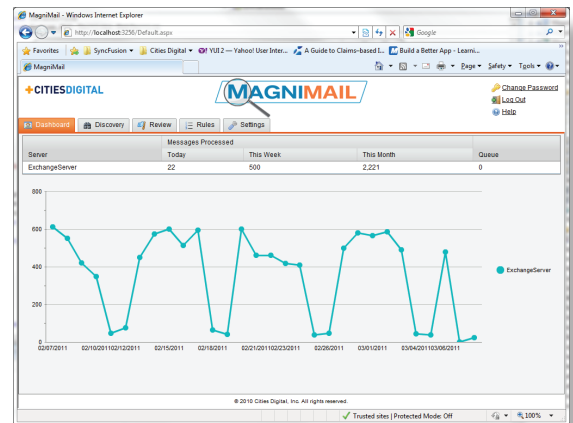

- Allows searching based on key words as well as by domains, users, date ranges and with the use of full text.
- Uses dynamic file archive locations, document names, and template information to ensure that all your email is placed where you want.
- Offers detailed configuration options to work the way that makes sense to you.
- Supports e-discovery requests and aggressive electronic content management.
- Allows administrators to block domains, email accounts, emails with keywords as well as design a filing path for particular emails using tokens.
- Directly integrates with Laserfiche using rules-based archiving filters for accuracy.
- Provides attachment handling for painless file management.
- Does not require installation on workstations.

MAGNIMAIL is an excellent complement to a well-rounded suite of tools that Laserfiche® provides for a total ECM package. MAGNIMAIL integrates well with Records Management Edition or Transparent Records Management strategies.

Contact us today to learn how you can put your email archiving chores on "cruise control" by making MAGNIMAIL your efficient and secure Automatic Email Archive.
