

PAPERLESS SOLUTIONS DIGITAL SIGNATURE KIT

WWW.CITIESDIGITAL.COM

Begin signing documents immediately with the Digital Signature Kit from Cities Digital. Connect the digital signature pad to your computer and you're ready to begin signing documents inside Laserfiche. Approve documents while you're traveling or initial staff documents instantly.

Increase Visibility with New Signage!

- You may select any location on the document for your signature and finish by signing on the digital pad.
- The digital signature kit includes a date/time stamp.
- The history of signatures are entered into Laserfiche Audit Trail.
- The signature may change the original document, overwrite the original document or create a new version of the signed document.
- ** The kit includes one (1) Epadlnk pad & application for use with Laserfiche 8.

Enable Managers to Approve Faster

- Store user-specific profiles for standardized document approval
- Approve many documents in rapid fashion
- Link unsigned version to newly signed version
- Sign documents from Word, Adobe and more

"Now we don't have to print a document just to sign it and scan it again..."

ROI: The Bottom Line

Making use of the digital signature kit in conjunction with Laserfiche allows managers to be more efficient. By applying a digital signature documents are processed faster and authentication is assured by Windows AD authentication.
